## Purchase of certified derivatives

Are you interested in promoting your sustainably produced and certified derivatives on the FONAP homepage? Please feel welcome to [contact](#) the FONAP secretariat at any time.

### Peter Greven Nederland

Peter Greven Nederland has been offering the first RSPO Mass Balance (MB) certified products since 2013. Since then, the product portfolio has been expanded continuously. After the successful establishment of Mass Balance certified products, the company has also been offering products as RSPO Segregated Goods (SG) since April 2016.

## Forum Sustainable Palm Oil

### **BASF**

BASF offers ingredients that are used in the manufacturing process of ingredients for detergents and cleaners and personal care products. And to a lesser extent, for the production of food additives. An essential raw material for these ingredients is palm kernel oil. Our goal is to have only certified and sustainable palm kernel oil in the value chain. We have taken action to drive the market transition: in 2018, we initiated a significant change in our personal care specialty products portfolio and will only offer sustainably certified palm-based ingredients to the cosmetics industry.

### **ICOF Europe GmbH**

As a member of the fully backwards integrated palm oil and derivate producer Musim Mas, ICOF Europe GmbH offers a wide range of Fatty Acids, Fatty Alcohols, Fatty Acid Esters, etc. as RSPO MB certified. The availability of RSPO SG products depends on current market situations and will be checked individually. Please do not hesitate to contact us in case of any question or request.
